Technical	
Model:	ET1200
Motor type:	Brushless Motor
Max. Output:	1200w/5.0hp
N. Weight:	12kg
Speed:	17km/h
Gear ratio:	3:2
Rated Rotation:	3000-3700 r/min
Rated Voltage:	48V
Rated Current:	25AH
Control handle:	Manual Tilt
Start system:	Accelerate Switch
Propeller size:	7-1/4x5-A inch
Transom plate height:	420mm
Dimensions (L*W* H):	920*365*220mm

Description

48v 5Hp Electric Outboard Motor

The 48v 1200w electric outboard motor generates 5.0 HP of clean energy.

Electric outboard motors are absolutely silent, produce no exhaust gases and cause no un-necessary waves. Of course, they are not as lively as fuel driven engines. They are sufficient though for leisurely motion.

The energy supply comes from 48v of deep cycle or deep discharge batteries, designed for gradual but continuous discharge. An ordinary car battery is not suited. Depending on speed-setting, a battery charge suffices for several hours of operation.

This is the ideal eco friendly 5 HP electric boat motor for small fishing boats & dinghys.

48v 5Hp Electric Outboard Motor

Specifications:

Model: ET1200

Motor type: Brushless Motor

Max. Output: 1200w/5.0hp

Weight: 12kg

Speed: 17km/h

Gear ratio: 3:2

Rated Rotation: 3000-3700 r/min

Rated Voltage: 48V

Rated Current: 25AH

Control handle: Manual Tilt

Start system: Accelerate Switch

Propeller size: 7-1/4x5-A inch

Transom plate height: 420mm

Dimensions (LxWx H): 920x365x220mm

Features

- * Full Digital Battery Indicator & Special Silent Sine Wave Controller
- * Portable Easy Starting Environmental Protection Quiet Comfortable
- * Features 360 degree steering rotation for reverse without gear shifting
- * Start-In-Gear protection/clutch feature prohibits prop rotation while idling
- * Lift/Tilt feature for shallow water operation and convenience
- * Superior engine air cooling system for improved engine performance
- * Easy pull off engine cover with push button latch for instant motor access
- * Vertical mount engine design for increased power, performance and durability
- * Superior carbonation system with primer bulb for increased efficiency

48v 5Hp Electric Outboard Motor

- * Twist grip throttle handle and engine stop button for improved response
- * Superior outboard anti corrosion system and anodes for increased durability
- * Durable cast aluminum construction for superior corrosion protection
- * Through the prop exhaust outlet for decreased noise and pollutants
- * Heavy duty lightweight aluminum cast propeller standard equipment
