Premium kayak paddle

High-back seat

Foot brace

11" foot pump

Pressure gauge

Carry bag

Repair kit

Manual

K0 Inflatable Kayak kit delivered in India via DTDC courier in 3-5 days.

Storage space an issue? No problem. With its recessed spring air valve, it's easy to rapidly inflate and deflate your kayak in less than ten minutes. And it stows neatly inside the included carry bag. You won't have to figure out how to decorate around a giant plastic boat in your apartment!

Transportation to the water? No problem. Deflated it fits easily inside your car, truck, SUV or minivan. No need to purchase a clumsy overhead rack and install it on top of your vehicle where it changes the aerodynamics and lowers your mpg. Plus, it's more secure inside and won't be damaged if you forget and pull in the garage without removing your kayak from the roof.

Just learning to paddle? No problem. With its two inflatable air chambers and inflatable I-beam floor, this kayak is stable and highly buoyant to inspire confidence in those new to this exciting water experience.

Inflatable Kayak 1 person with full kayak accessories for sale

Small budget? No problem! At this price you can buy several to get your entire family involved and enjoy day-long cruises wherever you find navigable water.

Plus, this kayak even comes with a premium paddle so you won't be up a creek without one.

Easy To Set Up Kayak

Your new kayak comes ready to go with two large side air chambers and an inflatable I-beam floor that helps insulate you from the water below. To set it up you simply unfold it, inflate it, attach the seat and start paddling. It deflates and folds back up for storage in its own carry bag just as easily. A hand pump is included.

Hull Design

Made from three-layer, heavy-duty reinforced PVC fabric with an integral linear skeg that helps it excel at both nimble maneuvering and sustained tracking, even in windy conditions.

Cockpit

A fully adjustable, removable polyester foam high-back seat is included for supportive paddling and an adjustable foot brace lets you tailor the fit for your comfort.

Self-bailing holes quickly disperse water that makes its way into the cockpit.

Deck

Its high volume bow offers generous storage and affords a drier ride even in rough water. The stern deck bungee cord makes it easy to stash items you need access to quickly. You'll also find comfortable rubber carrying handles at the bow and stern for portaging while inflated.
