Tandem Sit-on-top Fishing Kayak with Paddles & Life-vest for sale

These kayaks are very good recreational or touring boats. These can be used for recreational kayaking and also as a fishing kayak.

Another benefit of sit-on-top kayaks is that they are very easy to keep upright. Usually these kayaks are designed to be a bit broader than regular kayaks. The result of this is that there is more base to the kayak - which means that it's much harder for them to tip over.

The Sit-on-top kayaks are made out of plastic, they are also low maintenance, light-weight, and will last you a long, long time.
